DETAILED ACTION

Response to Amendment

1. The applicants amendments filed 8/30/2005 have been fully considered and reviewed by the examiner. The examiner notes the amendment to the specification, to update the status of a parent application, and therefore the objection has been withdrawn. In addition the examiner notes the cancellation of rejected claims 1, 4, 8, and 9 and the amendment to the objected claims to include all the limitations of the independent claims. Therefore claims 2, 3, 5, 6, and 7 are pending.

Allowable Subject Matter

2. Claims 2,3,5,6 and 7 are allowed.

3. The following is an examiner's statement of reasons for allowance: The closest prior art, Frenz, does not teach of *molding a header and a plurality of collector rods for a rotorod sampler*. In addition the group of collector rods are already adhered to the first component of the container and thus Frenz does not teach *adhering the assembly to the first component of the container*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
